

BIRD'S-EYE VIEW OF OUR NURSERY AND OFFICES.

INTRODUCTION.

HAYWARDS HEATH,
SUSSEX, 1911.

In asking your acceptance of our 1911 Catalogue, we venture to thank you and our very numerous patrons for their valued and continued support and to solicit recommendations to all interested in Orchid culture.

We beg to call attention to the fact that our stock in every department is exceedingly fine and in splendid condition. We are also continually adding new and choice species and varieties to our already large and rich collection, we therefore invite correspondence for all requirements.

All plants are guaranteed true to name, but should clients upon receipt of plants be in any way dissatisfied, they may be returned to us at once.

Also should any plant not flower within a reasonable degree of the description, or of a painting of such flower, the purchase money shall be refunded if desired, with 5 per cent. added interest, and no further claim admitted.

PAINTINGS. We employ upon our permanent staff a most qualified and experienced Artist, and we shall be pleased to undertake the painting of any Orchid flower or plant at a reasonable charge, the work being most beautifully and accurately finished to the most minute detail. Specimens of work may be seen upon application.

ORCHID GROWERS AND ASSISTANTS. Having at all times competent men in our Establishment and upon our books, we shall have much pleasure in recommending growers of proved ability and integrity.

IMPORTANT. We should be pleased to instruct one of our experienced and practical representatives to wait upon any lady or gentleman, to give advice upon selection, cultivation, etc., and upon the adaptability of existing structures to Orchid growing requirements.

PACKAGES. Half-price allowed for empties returned carriage-paid.

Telegraphic Address: Charlesworths, Haywards Heath.
Telephone No. 50 P.O. Haywards Heath. Code: A.B.C. 4th Edition.
